

## Tutorial for Viewing Notebook Files with Links

1. Go to Google Drive or SMART Amp in your "Shared with Me" files to download the notebook version of the note outlines. Be sure the file ends in .notebook. Make sure you know where your file has downloaded to on your computer (usually the downloads folder) If you are using SMART Amp, make sure you choose "Show all files from the drop down menu.

2. Next, go to your class wiki website and scroll down until you see the link for the Online SMART Notebook Viewer. Click that link.

3. This will open up a new tab and take you to the SMART Notebook Express site. Here you need to click on the button that says "Open an Existing Notebook File"

View, save and interact with SMART Notebook files online, at no charge.

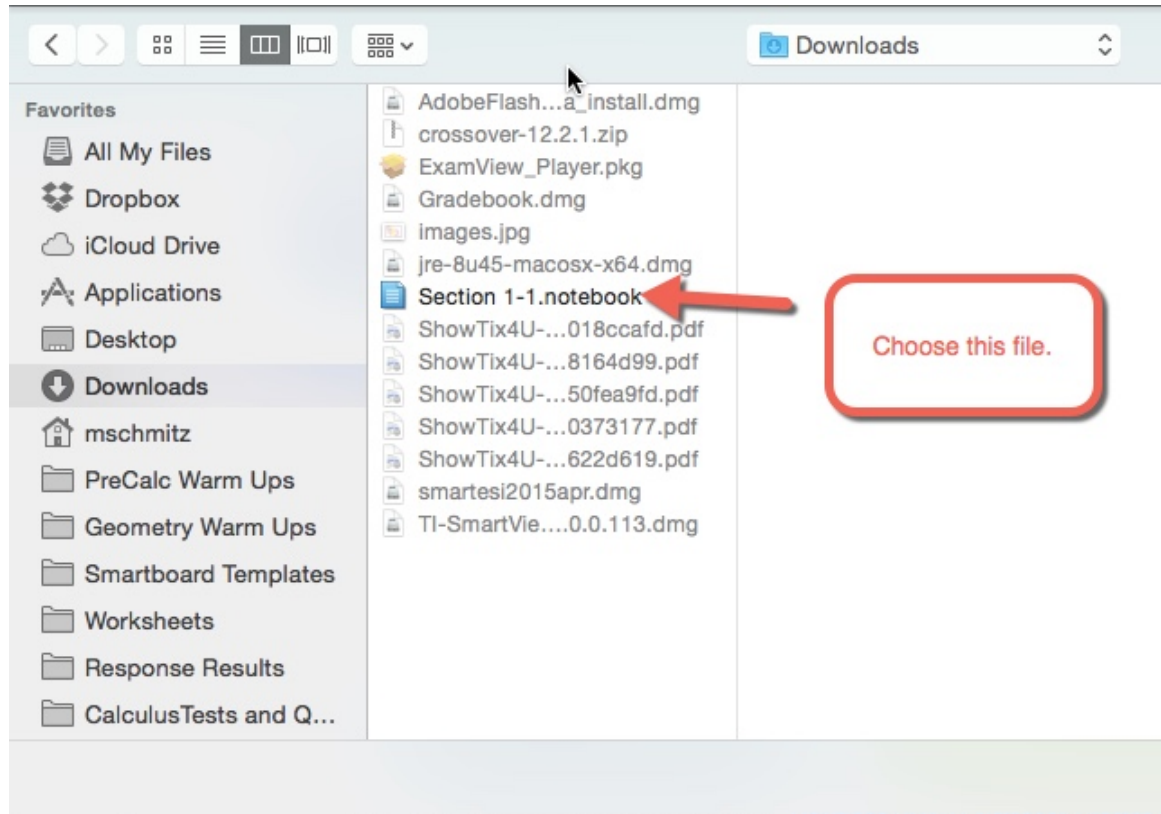

Three icons representing different access scenarios: a school building for "At School", a house for "At Home", and a globe for "Anywhere You're Connected!". Each icon is overlaid on a SMART Notebook interface. A red rounded rectangle with the text "Click here" and a red arrow points from the "Click here" box to the "Open an existing Notebook file" button. Below the icons are two buttons: a blue button with a document icon and the text "Open an existing Notebook file", and a green button with a document icon and the text "Create a new Notebook file".

For Support please contact SMART Technologies at 1.866.822.7098. International callers please use 1.403.228.8565. Hours of operation 5 am to 6 pm MST Monday to Friday. A service fee will be required payable by a major credit card.

4. Find your downloaded notebook file on your computer and choose that file.

5. Your notebook file should open up on the SMART Notebook express website. You can add notes to these files and click on any links, but you will not be able to print them. If you need a printable version of the notes, open the pdf version from SMART Amp or Google Drive. You can save the notebook version of the notes to your computer after you have added your own notes by choosing File->Save As.
